

CHANNELESS LENS 2913

Nova Flex LED Channeless Lens 2913 can be added after lights have already been installed. Lens includes 3M - Very High Bond tape and screws to easily secure install over lights. Diffuse light with the lens or add another level of protection. End caps for this product are currently unavailable, and most applications are run edge to edge to create seamless light.

Compatible with all LED ribbon excluding Flex Line 120V or Neon.
